

Mini Wired Strobe Siren 115dB (12V)

Feature

The mini wired strobe siren is a reliable 12 V DC alert device featuring a single-tone alarm at 115 dB SPL, synchronized flashing at around 80 flashes per minute, and low current draw (~200 mA). Ideal for vehicle or security alert systems requiring high volume and visual warning in a compact design.

Specifications	
Voltage	12 V DC
Current Draw	200 mA
Power Consumption	10 W
Sound Output	Single tone
Sound Level (SPL)	115 dB
Flash Rate	80 flashes per minute
Color	Red
Use Cases	Vehicle alarm, security alert, emergency signaling
