

Heat Shrink Tube Kit 2:1 (385pcs, 9 Sizes, 7 Colors)

Feature

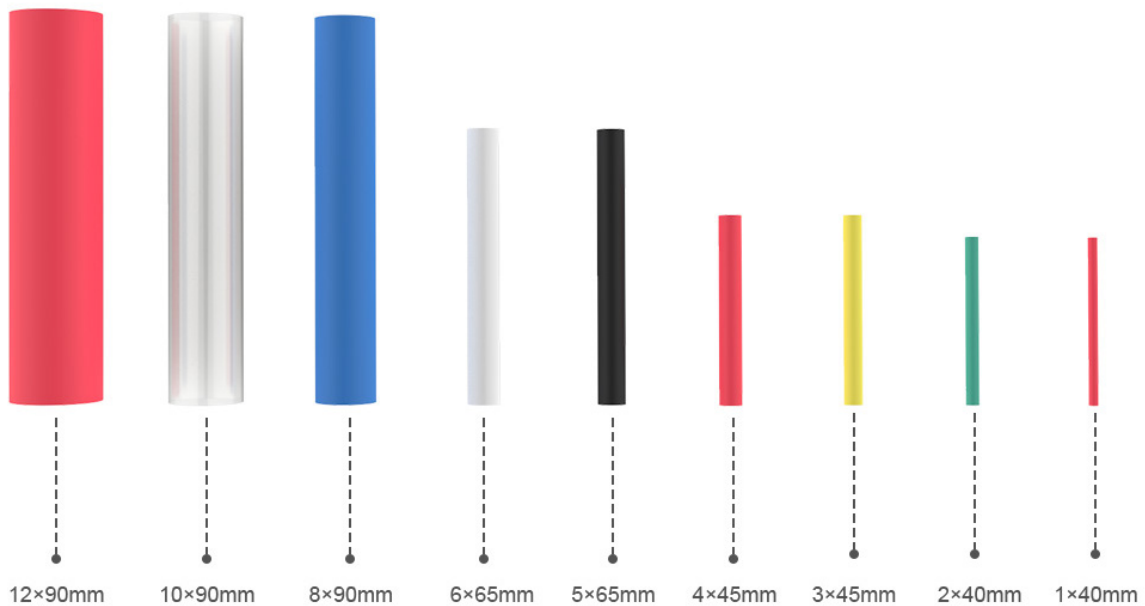

The 385-piece heat shrink tubing assortment provides 9 commonly used diameters in 7 different colors. Made from durable polyolefin with a 2:1 shrink ratio, each tube shrinks to half its diameter when heated above 70 °C. Ideal for bundling, wire protection, corrosion resistance, and electrical insulation in automotive, electronics, and industrial applications. Comes precut in convenient lengths.
